

## Dietary and Nutritional Management

VersaSuite simplifies and automates setting up and ordering detailed ad-hoc and predefined meal plans.

- **Complete Nutritional Inventory System**
  - ⇒ Rich content libraries
  - ⇒ Setup and order foods, recipes, meals, meal plans, and schedules
  - ⇒ Automatic meal billing; bill to daily room charge
- **Enterprise-grade**
  - ⇒ Multi-site support; inventory is site-specific and site-transferrable
  - ⇒ Business intelligence—inventory reporting, expiration date tracking, data analysis tools
  - ⇒ Allow security-bound vendor logins to monitor inventory levels
  - ⇒ Bulk purchasing
  - ⇒ Graphical view of all orders layered on top of scanned-in floor plan
- **Point of Sales**
  - ⇒ Additional meal purchasing
  - ⇒ Good costing and item pricing
  - ⇒ Discounting and Sales
  - ⇒ UPC support
- **Seamless Integration with HIS, CPOE, EHR, and Tasking**
  - ⇒ Task to and from nutrition module
  - ⇒ CPOE can warn of no/low inventory at time of order
  - ⇒ Define and order meals directly in the EHR
- **Bar Code Scanning**
  - ⇒ Bar coded menu cards and tray tickets to ensure fast delivery
