

# ALLERGY SPECIFIC EHR

VersaSuite Allergy offers a seamlessly integrated PACS and EHR. Allergists can open dozens of studies with one click and write reports using all the power of VersaSuite EHR.

## ALLERGY SPECIFIC

- Powerful tracking tools record and retrieve allergy-specific details, including intradermal allergen injections and skin tests.
- Dynamic interface filters by any clinical or demographic field, including allergen type, reaction, age, and more
- Efficient data analytics, including graphs, and outcomes-driven reporting
- Instantly document test results, administer immunotherapy shots

## SEAMLESS DEVICE INTEGRATION

- Interface with Medison, GE, Phillips, Siemens, and many others
- DICOM, IHE, HL7 compliant, including CCD & CCR import/export
- DICOM-converter, works in real time or batch/legacy workflows

## CUSTOM TEMPLATE AND WORKFLOW DESIGN

- Our software is designed, customized, and configured to conform to your specific workflows
- Ability to create and configure as many templates as you need for unique use cases
- The encoder inside powered by TruCode™
